

Our Moon – New Discoveries About Earth's Closest Companion

HAVE
FUN!

By Elaine Scott

Discuss

Talk through your thoughts.

- Turn to page 8, talk with someone about the phases of the moon. Which phases have you seen?

Create

Make an experience of your own.

- Create a journal/sketch book and track the moon for a period of time like a month! Include observations, drawings, and other information that you have learned in this book.
- There are many men and women who are important figures in space research. Choose one person and learn as much as you can about he/she. Share your findings.

Imagine

Use your imagination to explore.

- Look at the online resources at the back of the book and, with permission, visit some of the websites to learn more about the moon and our solar system.
- Space exploration is on-going and this book was published in 2015. Make a timeline from 2015-present of other discoveries related to the moon or space in general.
