

What Are the U.S. Regions?

HAVE FUN!

By Maureen Picard Robbins

DISCUSS

Talk through your thoughts.

- Which U.S. region are you from? What makes your region special?
- Which other U.S. regions have you visited? What did you do there? How was it different than the region you are from?

CREATE

Make an experience of your own.

- Make a travel brochure highlighting your region. Be sure to include your favorite places to visit and things to do!
- Make a collage that illustrates what your region looks like. You can use old magazines, newspapers and family photos.

IMAGINE

Use your imagination to explore.

- Imagine you are taking a trip anywhere in the U.S. Where would you go and what would you do?
- Explore your environment for things that are significant to your region. Create a map/diagram with this information.
